## ON THE PHILOSOPHY OF ETHICS:

## AN ANALYTICAL ESSAY.

By SIMON S. LAURIE, A.M., F.R.S.E., Author of "Doctrine of Latin Syntax," and "Primary Instruction in Relation to Education." In One Vol., Demy 8vo., Price 6s.

*From the Saturday Review.*

"Mr. Laurie's volume now before us is in substance, though not in form, a reply to Mr. Mill's *Utilitarianism*. Mr. Laurie has the metaphysical head and the metaphysical training of his countrymen, and has brought both to bear with great force on the problem proposed."

*From the Daily Review.*

"The discussion is able throughout; the handling of the topics is manly and vigorous, and the style—particularly in chap. viii., on the 'Sanctions of the Right,' and in chap. x., on the 'Immutability of Morality,' rises into true philosophical eloquence."

*From the Revue Populaire.*

"A notre avis l'auteur s'est acquitté en vrai philosophe de la tâche difficile et délicate qu'il s'est imposée, et nous croyons que son livre fera époque dans l'histoire des sciences morales."

*From the London Review.*

"The writer of the excellent little treatise before us holds an independent position between the conflicting schools."

It is simply the primary ground of obligation which he sets himself to trace; and this singleness of aim he has pursued with a laudable pertinacity throughout his whole treatise, which, considering how often it touches on points that might well tempt a writer to stray, is a remarkable example of the intellectual self-control which confines its author to the path he has marked out."

*From the Reader.*

"Mr. Laurie's essay will do a great deal to pave the way for a final and satisfactory settlement of the question (of a moral sense). . . ."

*From the Scotsman.*

"Mr. Laurie's essay is acute, outspoken, and honest. He has not thought hastily or rashly. . . . His style is plain, direct, and nervous."

*From the Freeman.*

"These brief and desultory remarks do no justice to the deep and comprehensive argument of Mr. Laurie's essay."

BY THE SAME AUTHOR.

## NOTES ON BRITISH THEORIES OF MORALS.

In One Vol., Demy 8vo., Price 6s.

*British Quarterly, April, 1868.*

"His criticisms are candid and highly instructive—e.g., those of the views of Bentham, Mill, and Bain. He manifests great aptitude in detecting radical defects, in exposing logical inconsistencies, and in detecting the legitimate tendencies of philosophical systems."

*From the Banffshire Journal, March 17, 1868.*

"In all his writings he has displayed ripe scholarship; and in his more elaborate works, deep thought and analytical power. . . . The arguments are succinctly and tersely put, and though scarcely exhaustive, are sufficient for the purposes of the student."

*From the Scotsman, May 6, 1868.*

"The book is a model of conscientious and exact thinking on ethical subjects. His controversial analysis of Professor Bain seems to us particularly successful."

*From the Examiner, April 18, 1868.*

"Mr. Laurie, however, has shown considerable acuteness in dealing with some of the highest questions in ethics, and we think that the volume will throw a new light on many of the moral theories discussed therein."

*From London Review.*

"His expositions of the philosophy of Lord Shaftesbury, Hutcheson, Butler, and Hume, are characterised by much steady insight, clear writing, and fairness of judgment."

*From the Freeman.*

"They are a series of thoughtful and discriminating criticisms on the chief British writers on ethics. . . . The examination of the more recent forms of Utilitarianism, as taught by Mr. Mill and Professor Bain, is especially able and searching."

EDMONSTON & DOUGLAS, EDINBURGH;  
HAMILTON, ADAMS, & Co., LONDON.

Now ready, fcap. 4to., price 7s. 6d.

## Purpose and Passion. By KENINGALE COOK, B.A.

"Mr. Cook is a scholar, and writes with considerable power and freshness. . . . The volume is well worth reading, and full of promise for the future."—*Standard.*

"He changes his note and his theme often, but the change is made in obedience to an internal impulse, and not with any special view to our benefit. He is seldom composed and reasonable; he is often imaginative and picturesque. He is learned and not commonplace. His portrait of Victor Hugo may serve as a specimen of his manner,—or rather of one of his manners: . . . There is power here—the power, as Mr. Cook himself suggests, of a prentice hand. If Mr. Cook will restrict himself a little in his subjects, be careful in his choice of heroes, abstain from needless eccentricities of language, and try to say simply, whether in prose or verse, whatever is his abiding idea—and abiding ideas he ought to have—he may yet be a master singer."—*Guardian.*

"His touch is firm and artistic. . . . There is no little grace and glow in many of the poems and songs."—*Illustrated London News.*

"One who can thus re-incarnate the enthusiasm of the labouring hero as he waits and watches for the inspiration that is to be life to his work will one day do better things."—*Manchester Guardian.*

"The verses contain so much good and original stuff that it is impossible not to respect them."—*Birmingham Daily Post.*

"Dies schön ausgestattete Buch verdient empfohlen zu werden. Es ist jugendliche Frische in den verschieden gegebenen Bildern und Schilderungen, und Wärme in den Empfindungen; eine allgemein gefällige Form, . . . zarte gefühle wechseln mit dem Schauer und Schrecken der Natur in gehöriger Harmonie ab."—*Hermann.*

VIRTUE & Co., Publishers, London and New York.

Lately Published, in Two Volumes, demy 8vo., price 21s., cloth boards,

## The Theory of the Arts; or, ART IN RELATION TO NATURE, CIVILIZATION, AND MAN. Comprising an Investigation, Analytical and Critical, into the Origin, Rise, Province, Principles, and Application of each of the Arts. By GEORGE HARRIS, F.S.A., of the Middle Temple, Barrister-at-Law, Author of "Civilization considered as a Science."

"Mr. Harris has contributed to Art-Literature a valuable treatise that ought to find a place in every library where books of the kind are not absolutely ignored."—*Art Journal.*

"A solid, sensible, judicious, and comprehensive book, inspired throughout with a high ideal of Art in all its forms."—*Scotsman.*

"A learned and elaborate work, which may with truth be said to be as full of interest as it is of erudition and research."—*Sun.*

"The author is an intelligent, thoughtful, and eloquent scholar, one who throws so much life and spirit into what is usually considered a dry and abstruse subject, that the lover of the lightest reading will experience as much pleasure in perusing these pages as the most learned."—*Court Journal.*

## MR. ROSSETTI'S POEMS.

Now ready, crown 8vo., in an ornamental binding designed by the Author, price 12s.

## POEMS.

BY DANTE GABRIEL ROSSETTI.

"There are no poems of the class in English—I doubt if there be any even in Dante's Italian—so rich at once and pure. Their golden affluence of images and jewel-coloured words never once disguises the firm outline, the justice and chastity of form. No nakedness could be more harmonious, more consummate in its fleshly sculpture, than the imperial array and ornament of this august poetry. . . . There has been no work of the same pitch attempted since Dante sealed up his youth in the sacred leaves of the 'Vita Nuova'; and this poem of his name-child and translator is a more various and mature work of kindred genius and spirit."—*Fortnightly Review*.

"To the public in general this volume will announce a new poet. To a small but influential circle of thinkers its publication will be only the formal evidence of powers and accomplishments long since recognised. . . . We shall have written to little purpose if there be any poem in the volume to which our readers will not eagerly resort."—*Athenaeum*.

"Here is a volume of poetry upon which to congratulate the public and the author; one of those volumes, coming so seldom and so welcome to the cultivated reader, that are found at a first glance to promise the delight of a new poetical experience. There is no mistaking the savour of a book of strong and new poetry of a really high kind: no confounding it with the milder effluence that greets us from a hundred current books of poetry, in various degrees praiseworthy, or hopeful, or accomplished; and we may say at once that it is the former and rarer savour that is assuredly in the present case to be discerned."—*Pall Mall Gazette*.

"In all [the Poems] the same qualities are apparent. They have in high measure each highest gift of which lyric poetry is capable. Passion, imagination, creative power, tenderness, and pathos are all apparent, and are accompanied by exquisite sense of melody, unexampled beauty of form, splendid colour, and, if we may use such a term, by absolute fragrance."—*Globe*.

## MR. WILLIAM MORRIS'S NEW BOOK.

Now ready, crown 8vo., in an ornamental binding designed for the Author, price 12s.

## THE STORY OF THE VOLSUNGS AND NIBLUNGS.

With Songs Translated from the Elder Edda.

By WILLIAM MORRIS and E. MAGNÚSSON.

The Völsunga Saga is a prose rendering, made in the 19th century, of the Story of the Nibelungs, the great Epic of the North: it is taken from the songs of the Elder Edda and from other floating traditions, or songs now lost: it has about it none of the somewhat inartistic loitering of the Nibelungen Lied, and unlike that poem, its great motif is the passion of Love: its best parts are concentrated and dramatic beyond anything in ancient art, and strangely anticipate that sentiment which is so much the moving power of modern art.

## ARITHMETIC,

Theoretical and Practical.

BY

W. H. GIRDLESTONE, M.A.,

OF CHRIST'S COLLEGE, CAMBRIDGE, AND PRINCIPAL OF THE GLOUCESTER THEOLOGICAL COLLEGE.

WITH APPENDIX,

CONTAINING EXAMINATION PAPERS.

Also, Just Published, small 8vo., 3s. 6d.

## A SCHOOL EDITION, without the Appendix.

(Copies may be had without the Answers to the Exercises.)

"We may congratulate Mr. Girdlestone on having produced a thoroughly philosophical book on this most useful subject. It appears to be especially suited for older students, who, having been taught imperfectly and irrationally in the earlier part of their school career, desire to go over the whole ground again from the beginning; but in the hands of an intelligent and discriminating teacher, it may also be perfectly adapted to the comprehension of young boys."—*Times*.

"Mr. Girdlestone's Arithmetic is admirably suited to the requirements of higher forms in schools, and for men at the Universities. . . . Mr. Girdlestone shows himself a thorough teacher; processes are lucidly explained, and practical solution of problems well given."—*Guardian*.

"We must content ourselves with this brief general notice of the work, which we consider one of the highest order of its kind—far, very far superior to those of former days."—*Nautical Magazine*.

"The first, and by far the most important treatise, is that by Mr. W. H. Girdlestone, M.A., who has succeeded in producing a work far superior to the ordinary books on the subject. . . . It is an excellent treatise, and its merits must render it popular for the purposes of education."—*Mechanics' Magazine*.

"Mr. Girdlestone has succeeded in the difficult task—in which, as the times go, he will have ever more and more competitors—of commending Arithmetic to the intellect as well as the memory; and Messrs. Rivington have done wisely to popularise the treatise by issuing for school use a smaller edition."—*Daily Telegraph*.

"The object of the book, unlike the majority of manuals of arithmetic, is to explain the reasons of, rather than to give simply the various rules. The rules in Mr. Girdlestone's book are built up from the several steps taken in working out the problems, each of which is carefully explained. A school edition is published as well as the complete work."—*Public Opinion*.

"Mr. Girdlestone's definitions are concise but explicit, and quite plain to modest understandings. So successful a work has rapidly won favour, and the first edition having been exhausted, a second has now been issued, bearing further marks of the author's comprehensive ability. An appendix contains examination papers of Oxford, Cambridge, Winchester, Eton, &c., and will be found most useful to students preparing for public examinations. This book should rank as a standard one of its class."—*Examiner*.

"Mr. Girdlestone's Arithmetic has deservedly acquired a high place among works of the kind; and the enlargement of the second edition will give it a yet higher value."—*Standard*.

**The Life of Goethe.** By GEORGE HENRY LEWES. New Edition. Partly re-written, with Portrait. Demy 8vo. 16s.

"One of the best biographies in English or in any other language. It tells the story of the life it has to describe in a simple, sensible, straightforward way. There is great judgment shown in the distribution of the parts, and in the space allotted to each. . . . The attitude preserved towards his hero by Mr. Lewes is also meritorious beyond the usual merits of biographers."—*Saturday Review*.

**Aristotle: A Chapter from the History of Science;** including Analyses of Aristotle's Scientific Writings. By GEORGE HENRY LEWES. Demy 8vo. 15s.

"The first attempt yet made to display and estimate the researches of Aristotle in the entire field of science. Mr. Lewes says in his Preface that this monograph represents part of a study of that first period in the history of science, which he hopes to mature into a sketch of what might be called the Embryology of Science. But if he do not live to complete the whole design, here is at any rate a part of it, complete in itself, from which the English reader may learn what even few Greek scholars distinctly know, the character, and worth and influence of Aristotle's scientific teaching."—*Examiner*.

**History of Art.** By Dr. WILHELM LÜBKE, Professor of "The History of Art." Translated by F. E. BUNNETT. Second Edition. In 2 vols. Imperial 8vo. With 415 Illustrations. Handsomely bound in cloth. 42s.

"Dr. Lübke's style of writing, if we may judge of it by this translation, is eminently lucid and pleasing. His book is evidently intended for popular reading and study—popular, we mean, for those of cultivated minds; his critical remarks, moreover, are based on knowledge and discrimination."—*Art Journal*.

I. SENSE AND SENSIBILITY. III. EMMA.  
II. PRIDE AND PREJUDICE. IV. MANSFIELD PARK.  
V. NORTHANGER ABBEY AND PERSUASION.

"Shakspeare has neither equal nor second. But among the writers who have approached nearest to the manner of the great master, we have no hesitation in placing Jane Austen, a woman of whom England is justly proud."—*Lord Macaulay*.

"Miss Austen's novels," says Southey, "are more true to nature, and have for my sympathies passages of finer feeling than any others of this age." Sir Walter Scott and Archbishop Whately, in the earlier numbers of *The Quarterly Review*, called the attention of the public to their surpassing excellence.—*Quarterly Review*, Jan. 1870.

"Miss Austen has a talent for describing the involvements and feelings, and characters of ordinary life, which is to me the most wonderful I ever met with. Her exquisite touch, which renders commonplace things and characters interesting from the truth of the description and the sentiment, is denied to me."—*Sir Walter Scott*.

"Pride and Prejudice," by Jane Austen, is the perfect type of a novel of common life; the story so concisely and dramatically told, the language so simple, the shades and half-shades of human character so clearly presented, and the operation of various motives so delicately traced—attest this gifted woman to have been the perfect mistress of her art."—*Extract from Arnold's Manual of English Literature*.
